## II. COMMUNITY DEVELOPMENT

### A. PROGRESS TOWARD MULTI-SPECIES GOALS, OBJECTIVES, PROJECTS, AND MILESTONES

---

---

**Goal 1: Develop the Small Boat Harbor (SBH)**

**Objective:** Actively represent local fishermen's interests in the construction, funding and operation of this regional project.

*Milestone 1: Continue Local Share Set-Aside program*

**Status:** CBSFA is continuing to save money toward the development of a small boat harbor on St. Paul Island. Ongoing.

*Milestone 2: Continue efforts to seek additional Local Share funding*

**Status:** During quarter two, CBSFA received \$50,000 in opilio disaster grant funding for several SBH related projects. Those projects were initiated in quarter two and are referenced elsewhere in this report.

*Milestone 3: Facilitate efforts to secure multi-entity uplands access agreement*

**Status:** Ongoing. Currently two firms, Polar Consult (City of St. Paul) and DHI (TDX Corporation) are working together to draft the uplands access agreement.

*Milestone 4: Seek State and Federal approval to accelerate ramp construction*

**Status:** This project has been modified to take advantage of the opilio disaster grant program and to meet the immediate needs of the local fleet. Funding was received in quarter two, and ramp re-construction planning was initiated during the same period. The project was put out to bid in quarter three.

*Milestone 5: Pending approval, construct ramp during summer 2001 season*

**Status:** This project has been modified and is underway. See notes immediately above, plus Substantial Amendment 01-04 filed with the State at the end of quarter two.

*Milestone 6: Develop SBH Business Plan that includes long-term O & M funding options*

**Status:** CBSFA is awaiting the completion of the final Corps of Engineers general re-evaluation report of the proposed SBH, which includes updated economic analysis. We expect that to occur this summer. Following this, the SBH Business Plan will be completed. Ongoing.

**Goal 2: Support Development of St. Paul Harbor Based Projects**

**Objective:** Identify opportunities and make strategic investments and allocations decisions

Milestone 1: *Negotiate deployment of shore-based processor at City dock*

Status: CBSFA, Icycle Seafoods, and the City of Saint Paul signed a Memorandum of Understanding (MOU). The goal of the MOU is to ultimately deploy a multi-species processor to St. Paul Harbor, consistent with the CDP. This project is underway. During quarter three CBSFA retained Natural Resource Consultants (NRC) to commence an economic impact study for this project.

Milestone 2: *Conduct Multi Species Development Study (MSD Study)*

Status: CBSFA retained Natural Resource Consultants under the terms of the Icycle MOU described immediately above. This project is underway.

Milestone 3: *Short list opportunities, conduct due diligence*

Status: This will be done as a result of the MSD study, which is now being conducted by NRC.

Milestone 4: *Make final determination, develop business plans and make investment or allocation decisions consistent with MSD Study.*

Status: Final determination will be based on results of the MSD study, which is now being conducted by NRC.

---

**Goal 3: Direct Investment in Strategic Fisheries & Vertical Industries**

This training was previously scheduled for September but due to current events it has been postponed. Patience is currently working with American Seafoods to develop a training plan and to reschedule.

Project 3B: Freezer / Longliner Investment

Milestone 1: *Conduct due diligence on North Cape acquisition in late 2000*

Status: During quarter three (3), American Seafoods exercised its option for investment with the North Cape and also acquired two additional freezer longliners. Through its investment in American Seafoods, CBSFA now owns a portion of all three freezer longliners.

Milestone 2: *Make final determination, develop Business Plan and make investment consistent with due diligence, MSD Study and other strategic guidelines.*

Status: See notes 3B, milestone 1.

#### Project 3C: Misty Islands Seafoods

Milestone 1: *Review opportunities identified in MSD Study*

Status: During quarter two the CBSFA Board of Directors adopted a new Management Plan that specifically addressed the MIS, Ocean Cape, and Zolotoi issue(s). CBSFA is actively seeking some business opportunities to put all of our crab related assets back on a performing basis, or to dispose of them in an economically viable manner.

Milestone 2: *Short list MSD Study opportunities, conduct due diligence*

Status: See answer directly above, 3C - milestone 1.

Milestone 3: *Make final determination, develop business plans and make investments consistent with MSD Study.*
