B. OUTREACH

We have expanded our scholarship program to include non-CDQ villages in the region. This includes non-CDQ villages on the Yukon River between Grayling and Mt. Village, which are included in the Lower Yukon and Iditarod School Districts. The Scholarship Committee met in December to approve scholarship recipients and address minor changes to the scholarship policies.

YDFDA has chosen a web site developer to design our website. A website will provide additional access to Yukon Delta residents seeking information about our programs.

As part of the outreach activities, the newly hired Rural Development Specialist was involved in the following meetings:

- Participated in the ten-year anniversary celebration of the CDQ program
- Participated in the YDFDA Board meetings in November and December
- Attended a meeting in St. Mary's regarding the regional training center, which included representatives from EDA, USDA, and local community residents
- Met with Mike Andrews, Alaska Works Partnership, and Dick Cattanach, Associated General Contractors, to discuss training needs of our community residents for upcoming capital construction projects
- Attended a community meeting in St. Mary's regarding a regional KuC Learning Center to be located there
- Spoke with Greg Selks, Alaska Business Development Center, to request that an additional village be assisted with their tax returns
- Participated in a meeting involving Emmonak community representatives and the BIA Roads and State of Alaska Department of Transportation, to discuss upcoming funding for roads projects in the community
- Attended the BIA Rural Providers Conference
- Met with Nelda Warkentin, State of Alaska Communities Priorities Program, to discuss potential funding for a project in Kotlik
- Met with Berney Richerts and Tom Richards of EDA to discuss potential funding for potential fish-related projects in-region

Our village representative program continues in all six villages, Alakanuk, Emmonak, Grayling, Kotlik, Mountain Village and Nunam Iqua. The village representatives work in the community to provide information regarding employment opportunities and training positions and administer drug tests to applicants. They also have applications and information on the scholarship programs and loan applications from both the Division of Investments and the AVCP Revolving Loan Program.

The latest issue of YDFDA's newsletter, the "Yukon Drifter", was mailed to every household in member communities.

The training and employment coordinator is located at our Emmonak office. His duties include finding and filling inshore/offshore training and employment opportunities as well as training and educational opportunities at AVTEC, Alaska Pacific University, Sheldon Jackson College, all branches of the University of Alaska, and other learning institutes that meet the qualifications of our Scholarship program. This person administers YDFDA's scholarship programs and YDFDA's permit and gear loan programs through the Division of Investments and the AVCP Revolving Loan Programs. YDFDA feels it is important to administer these programs from the villages so residents have easy access to the programs they are most interested in.

Discussions continue with the community of Marshall to coordinate the production and marketing of Lower Yukon River salmon.

The attached announcements were posted in the villages during the fourth quarter.
