Derived from 2000 U.S. Census, Summary File 3, Table P53
American FactFinder: <http://factfinder.census.gov>

Census income data is derived from what is known as the "long form" questionnaire, provided to a sample of households. Approximately 50% of households were sampled in rural areas and 15% of households were sampled in urban areas during the April 2000 Census. Sample data is then extrapolated to represent the entire community. For more information, see U.S. Bureau of Census, Summary File 3 Technical Documentation, Appendix C - Data Collection and Processing Procedures, at: http://factfinder.census.gov/servlet/DatasetMainPageServlet?_ds_name=DEC_2000_SF3_U&_program=DEC&_lang=en

NOTE:

This table estimates average household income within boroughs and REAAs (including home rule and first class cities within the perimeter of REAAs) based on aggregate household income. The U.S. Census Bureau reports income data by state, borough, census area, city, census designated place, Alaska Native Village Statistical Area, census tracts, and block groups; but does not do so by REAA. The estimates in this table are derived from aggregate household income (Table P54) divided by the number of households (Table P15), for all localities (cities, census designated places, and Alaska Native Village Statistical Areas) within REAAs and boroughs. American FactFinder: <http://factfinder.census.gov>

NOTE:

¹ The particular locality is within the perimeter of an REAA, but operates a city school district.

² For purposes of the 2000 Census, unified municipalities were not divided into CDPs. In the case of unified municipalities, the "locality" constitutes the entire unified municipality.

**TABLE V.D -- Boroughs and Unorganized Portions
of Model Boroughs, Ranked According to
Estimated Average Household Income**

This table estimates average household income within boroughs and model boroughs based on aggregate household income. The U.S. Census Bureau reports income data by state, borough, census area, city, census designated place, Alaska Native Village Statistical Area, census tracts, and block groups; but does not do so by model borough. The estimates in this table are derived from aggregate household income (Table P54) divided by households (Table P15), for all localities (cities, census designated places, and Alaska Native Village Statistical Areas) within boroughs and model boroughs.

Localities are color coded as follows:

Voluntarily formed organized borough
Mandatory organized borough
Model boroughs wholly within the unorganized borough
Territory in the unorganized borough within a model borough that also includes an organized borough

NOTE:

Census income data is derived from what is known as the "long form" questionnaire, provided to a sample of households. Approximately 50% of households were sampled in rural areas and 15% of households were sampled in urban areas during the April 2000 Census. Sample data is then extrapolated to represent the entire community. For more information, see U.S. Bureau of Census, Summary File 3 Technical Documentation, Appendix C - Data Collection and Processing Procedures, at: http://factfinder.census.gov/servlet/DatasetMainPageServlet?_ds_name=DEC_2000_SF3_U&_program=DEC&_lang=en

**TABLE V.E -- Localities within Organized Boroughs and Model Boroughs
Ranked According to Median Household Income**

This table lists 344 localities (3 unified municipalities, 146 cities, and 195 census-designated places (CDPs)). The localities are shown by region within Alaska's 16 boroughs and 19 model borough boundaries. The boroughs and model boroughs are listed alphabetically; the localities within each borough and model borough are ranked according to median household income (Table 53) as reported in the 2000 U.S. Census.

Localities are color coded as follows:

AREAS WITH MANDATORY LOCAL RESPONSIBILITY FOR EDUCATION, PLANNING, PLATTING AND LAND USE REGULATION:	
Locality (incorporated or unincorporated) within voluntarily formed organized borough	
Locality (incorporated or unincorporated) within mandatorily formed organized borough	
First class or home rule city in unorganized borough	
AREAS WITHOUT MANDATORY LOCAL RESPONSIBILITY FOR EDUCATION, PLANNING, PLATTING AND LAND USE REGULATION:	
Second class city within unorganized borough	
Unincorporated community within unorganized borough
