

**Chapter 36. State Board of Registration for Architects,
Engineers, and Land Surveyors.**

(Words in **boldface and underlined** indicate language being added; words [CAPITALIZED AND BRACKETED] indicate language being deleted. Complete new sections are not underlined.)

12 AAC 36 is amended by adding a new section to read:

Publisher: Please renumber existing article 5 to article 6.

**Article 5. Continuing Education for Professional Architects,
Engineers, and Landscape Architects.**

Section

- 500. Purpose of continuing education
- 510. Continuing education requirements
- 520. Computation of continuing education credit
- 530. Exemptions
- 540. Record keeping and review of records
- 550. Definitions

12 AAC 36.500. Purpose of continuing education. The purpose of the continuing education program is to maintain a continuing level of competency and standards for professional architects, engineers, and landscape architects, in order to promote the public health, safety, and welfare within this state. (Eff. 10 /18 /2007, Register 184)

Authority: AS 08.48.071 AS 08.48.101

12 AAC 36.510. Continuing education requirements. (a) Unless exempted under 12

AAC 36.530, a professional architect, engineer, or landscape architect must meet the continuing education requirements of 12 AAC 36.510 – 12 AAC 36.550 as a condition of the renewal, reinstatement, or reactivation of the professional architect, engineer, or landscape architect registration.

(b) Unless exempted under 12 AAC 36.530, a professional architect, engineer, or landscape architect seeking renewal, reinstatement, or reactivation of a professional architect, engineer, or landscape architect registration shall submit, on a form provided by the department, a certification that the professional architect, engineer, or landscape architect has met the continuing education requirements of 12 AAC 36.510 – 12 AAC 36.550.

(c) To renew a professional architect, engineer, or landscape architect registration for a biennial registration period that begins on or after January 1, 2010, a professional architect, engineer, or landscape architect must obtain 24 professional development hours during the 24 months immediately preceding that registration period.

(d) To reinstate a lapsed professional architect, engineer, or landscape architect registration that begins on or after January 1, 2010, a professional architect, engineer, or landscape architect seeking reinstatement must obtain 24 professional development hours during the 24 months immediately preceding the application for reinstatement of the professional architect, engineer, or landscape architect registration.

(e) A professional architect, engineer, or landscape architect who obtains more professional development hours during a biennial registration period than needed to qualify for renewal or reinstatement of the professional architect, engineer, or landscape architect registration may apply up to 12 of the excess professional development hours to the continuing education requirement for the subsequent biennial period for professional architect, engineer, or

landscape architect registration.

(f) A professional architect, engineer, or landscape architect holding multiple registrations is required to earn the total number of professional development hours of continuing education as those required for a single registration holder, however, at least 8 hours of the professional development hours must be in each registration held.

(g) Continuing education courses or activities are not pre-approved by the board, but must meet the following criteria:

(1) the subject matter must address the public's health, safety and welfare by instructing in the proper planning, design, and construction of buildings, structures, infrastructure, and the spaces within and surrounding such facilities so that

- (A) risk of injury to persons or property is minimized;
- (B) the results are durable and environmentally friendly;
- (C) the results function properly in all relevant respects; and
- (D) the results enhance the general welfare of the public;

(2) the course or activity must be relevant to the practice of professional architecture, engineering, or landscape architecture, and may include technical, ethical, or managerial content;

(3) the course or activity must be designed to maintain, improve, or expand professional architect, engineer, or landscape architect skills and knowledge;

(4) each course or activity must be well organized and the content presented in a sequential manner; and

(5) the presentation must be made by persons who are well qualified in the subject by education or experience in the subject.

(h) The sponsoring organizations that provide continuing education may be an educational institution, a professional association, or a business or governmental organization. Sponsoring organization's continuing education that satisfies the requirements of this section includes the professional architect's, engineer's, or landscape architect's

(1) successful completion of college courses;

(2) successful completion of continuing education courses;

(3) successful completion of short courses, tutorials, correspondence, web-based courses, and televised or videotaped courses;

(4) attending seminars, in-house workshops, or professional or technical presentations at meetings, conventions, or conferences; and

(5) teaching or instructing the activities listed in (1) – (4) of this subsection.

(i) A professional architect, engineer, or landscape architect who also holds a registration as a professional architect, engineer, or landscape architect in another licensing jurisdiction may meet the requirements of 12 AAC 36.510 – 12 AAC 36.550 by establishing that the professional architect, engineer, or landscape architect has met the mandatory continuing education requirements for renewal of the professional architect, engineer, or landscape architect registration in the other licensing jurisdiction, if the mandatory continuing education requirements of the other jurisdiction are substantially similar to or exceed those of 12 AAC 36.510 – 12 AAC 36.550 at the time that continuing education credit is claimed.

(Eff. 10/18/2007, Register 184)

Authority: AS 08.48.071 AS 08.48.101 AS 08.48.341

12 AAC 36.520. Computation of continuing education credit. (a) The board has final authority with respect to the acceptance of courses, activities, credits, professional

development hour values, and other methods of earning continuing education credits.

Continuing education credit is computed as follows:

(1) credit for college approved courses is based upon course credit established by the college;

(2) credit for qualifying seminars, in-house courses, workshops, and professional or technical presentations is based on one professional development hour for each hour of attendance at the seminar, in-house course, workshop, or professional or technical presentation;

(3) attendance at qualifying programs presented at professional and technical society meetings, conventions, or conferences earns one professional development hour for each hour of attendance at the program.

(b) The computation of credits of professional development hours is as follows:

(1) one unit of college semester credit equals 45 professional development hours;

(2) one unit of college quarter credit equals 30 professional development hours;

(3) one unit of professional architect, engineer, or landscape architect continuing education credit equals 10 professional development hours;

(4) one hour of a seminar, in-house course, workshop, or professional or technical presentation attended at meetings, conventions, or conferences equals one professional development hour;

(5) one hour of initial instruction of the subject matter when teaching professional development courses, seminars, or professional or technical presentations equals two professional development hours; this provision does not apply to full-time faculty. (Eff. 10/18/2007, Register 184)

Authority: AS 08.48.071 AS 08.48.101

12 AAC 36.530. Exemptions. (a) A professional architect, engineer, or landscape architect is exempt from the continuing education requirements of 12 AAC 36.510 – 12 AAC 36.550 for the first biennial registration renewal period following initial issuance of the professional architect, engineer, or landscape architect registration.

(b) A professional architect, engineer, or landscape architect is exempt from the continuing education requirements of 12 AAC 36.510 – 12 AAC 36.550 for renewal of the professional architect, engineer, or landscape architect registration for the biennial registration period immediately following a period of service by the professional architect, engineer, or landscape architect on active duty in the armed forces of the United States exceeding 120 consecutive days in a year.

(c) A professional architect, engineer, or landscape architect who is in retired status under 12 AAC 36.115 is exempt from the continuing education requirements of 12 AAC 36.510 – 12 AAC 36.550 during the time the professional architect, engineer, or landscape architect is retired. A retired professional architect, engineer, or landscape architect who wishes to return to the active practice of professional architect, engineer, or landscape architect must meet the requirements of 12 AAC 36.115.

(d) A professional architect, engineer, or landscape architect may request an exemption from the continuing education requirements of 12 AAC 36.510 – 12 AAC 36.550 by submitting a written request to the board that describes the reasons for the request and includes supporting documentation. If the board finds good cause, the board will grant an exemption under this subsection to a professional architect, engineer, or landscape architect who is experiencing a physical disability, serious illness, family emergency, or other extenuating circumstance.

(Eff. 10/18/2007, Register 184)

Authority: AS 08.48.071 AS 08.48.101

12 AAC 36.540. Record keeping and review of records. (a) A professional architect, engineer, or landscape architect shall maintain records that may be used to verify professional development hours claimed under 12 AAC 36.510 – 12 AAC 36.550. These required records include

(1) a log showing the course or activity claimed, the sponsoring organization, the location and duration of the course or activity, the name of the speaker or instructor, and the unit of credit or number of professional development hours earned; and

(2) attendance verification records in the form of completion certifications, signed attendance receipts, receipts for the payment of tuition or fees, a copy of a list of participants signed by the speaker or instructor, or similar documents showing evidence of attendance.

(b) Records required under (a) of this section must include sufficient detail to permit verification during an audit, and must be maintained for at least four years from the date that the course or activity was completed.

(c) The board may request at any time that a professional architect, engineer, or landscape architect provide proof of compliance with the continuing education requirements of 12 AAC 36.510 – 12 AAC 36.550. A professional architect, engineer, or landscape architect must provide a copy of the records required under (a) of this section to the board for audit verification purposes within 30 days of receipt of a request for the records.

(d) Audits of compliance of professional architect, engineer, or landscape architect continuing education requirements will be conducted in accordance with 12 AAC 02.960.

(Eff. 10/18/2007, Register 184)

Authority: AS 08.48.071 AS 08.48.101

12 AAC 36.550. Definitions. In 12 AAC 36.500 – 12 AAC 36.550, unless the context requires otherwise,

(1) “college” means a community college, college, or university accredited by a nationally recognized educational accrediting body acceptable to the board;

(2) “continuing education unit” means a uniform unit of measure for continuing education and training established by a nationally recognized professional or technical society acceptable to the board;

(3) “course or activity” means a course or activity with a clear purpose and objective to maintain, improve, or expand the skills and knowledge relevant to the practice of professional architect, engineer, or landscape architect that meets the requirements of 12 AAC 36.510;

(4) “professional development hour” means not less than 50 minutes of instruction or presentation in a continuing education course or activity that meets the requirements of 12 AAC 36.510. (Eff10/19.2007, Register 184)
