

Alaska Product Preference

Alaska Statutes

AS 36.30.332. Classification of Alaska products.

(a) The commissioner of commerce, community, and economic development shall adopt regulations establishing the value added in the state for materials and supplies produced or manufactured in the state that are used in a state procurement and establishing whether a product qualifies as a recycled Alaska product. The commissioner shall publish a list of the products annually. A supplier may request inclusion of its product on the appropriate list.

(b) Materials and supplies with value added in the state that are

(1) more than 25 percent and less than 50 percent produced or manufactured in the state are Class I products;

(2) 50 percent or more and less than 75 percent produced or manufactured in the state are Class II products; and

(3) 75 percent or more produced or manufactured in the state are Class III products.

(c) In a bid or proposal evaluation a

(1) Class I product is given a three percent preference;

(2) Class II product is given a five percent preference;

(3) Class III product is given a seven percent preference.

AS 36.30.338. Definitions

(1) "Alaska product" means a product of which not less than 25 percent of the value, as determined in accordance with regulations adopted under [AS 36.30.332](#) (a), has been added by manufacturing or production in the state;

(2) "produced or manufactured" means processing, developing, or making an item into a new item with a distinct character and use through the application within the state of materials, labor, skill, or other services;

(3) "product" means materials or supplies but **does not include gravel and asphalt**, (emphasis added)

(4) "recycled Alaska product" means an Alaska product of which not less than 50 percent of the value of the product consists of a product that was previously used in another product, if the recycling process is done in the state.
